

Vermillion Area Farmers Market
February 26, 2011

Agenda

1. Update on the Winter Market – how's it going? Problems, things to retain?
2. Vermillion PTA event. Do we want to do it and what are we willing to do?

I copied Judy Zwolak's message:

"I wanted to get your advice on an event the PTA is planning to promote healthy lifestyles for our students and their families. On Thursday, May 5, we are holding our first PTA Family Wellness Night, which will feature different stations highlighting healthy eating and physical activity. I volunteered to be in charge of the food tasting table, where we will offer kids small samples of healthy foods. I like the idea of so-called "super foods" like quinoa, sweet potatoes, beans, berries, etc. I'd like to get the kids (and their families) to try something new, but not too scary.

Would the Farmer's Market be interested in helping out with this station at the event? It would be great to get kids exposed to locally grown foods.

Thanks,

Judy Zwolak, President, Vermillion PTA
624-9796"

3. How to distribute row covers in March. What will we require of vendors (e.g., a contract for their soul if they don't sell early?)
4. Schedule an April vendor meeting. It says in our by-laws that we will do that and that vendors have a vote in anything we vote on there!
5. John – email account.
6. Update on the grant – Grace and Christie.
7. Anything else?
8. Schedule March meeting.

If time

1. Schedule start/end dates for Thursday and Saturday markets.
2. Do we want to hire Andrew again for Thursdays?
